Lisbon, Portugal

01 EXECUTIVE SUMMARY

Controller and Certified Accountant with over 20 years of experience in management control, financial planning and auditing, developed across four distinct sectors — transport, retail, food-service and media. Throughout his career, he has built a reputation for technical rigour and for the ability to turn data into actionable information, supporting management in strategic decision-making.

He began his career in internal auditing, a field in which he was distinguished with the 1st National IPAI Award in 2010, progressively moving into management-control roles and, currently, into leading planning and management control at RTP. To this experience he adds a solid academic background — including a Master's in Auditing and a Postgraduate Diploma in Data Science & Business Analytics — and a continuous investment in technical updating.

02 PROFESSIONAL PROFILE

A finance professional focused on creating value through information. He combines a solid technical foundation in accounting, taxation and auditing with advanced analytical skills in Business Intelligence and Data Analytics, positioning himself at the intersection between the traditional finance function and modern data-driven performance management.

His strategic positioning rests on three pillars: rigour — ensured by an excellent education and more than two decades of practice; analytical vision — the ability to simplify complex processes and convert scattered data into decision-making indicators; and business partnership — the understanding that management control exists to support strategy, not merely to report on it.

03 KEY COMPETENCIES

Management Control & FP&A

Budget planning and control · Forecasting · Variance analysis · Monthly closing · Cost accounting · Performance management.

Business Intelligence & Data Analytics

Power BI · Data modelling · Management dashboards · KPIs and executive reporting · Data analytics · Advanced Excel (Power Query, Power Pivot).

Accounting, Taxation & Financial Reporting

Financial and management reporting · Accounting standards (SNC/NCRF) · Taxation (VAT, corporate and personal income tax) · Regulatory reporting and reporting to supervisory authorities.

Auditing, Internal Control & Risk

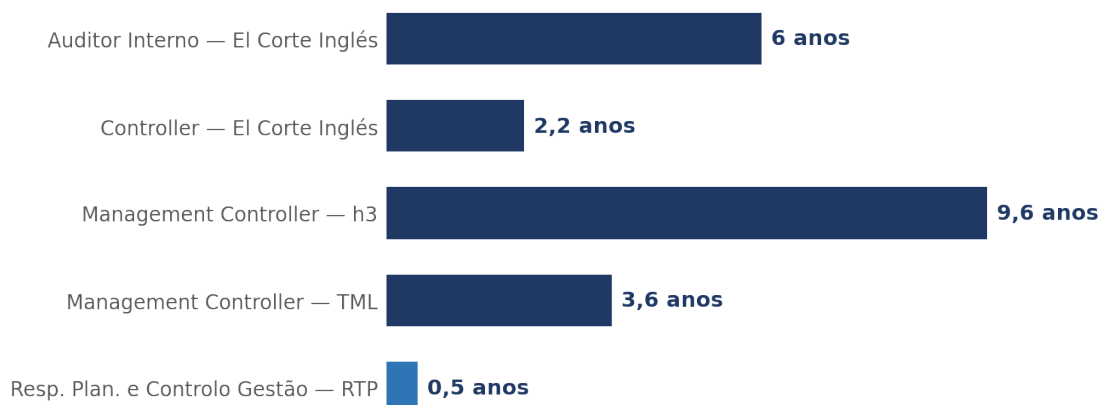

Internal auditing · Assessment of internal control and corporate governance · Risk management · Compliance · Liaison with external auditors.

Leadership & Decision Support

Strategic decision support · Public procurement · Communication of financial information · Results orientation.

04 PROFESSIONAL EXPERIENCE

A consistent path of progression, from internal auditing to leading planning and management control, across four reference organisations and four sectors of activity.

RTP – Rádio e Televisão de Portugal · Area Manager, Planning & Management Control · Dec 2025 – Present

He leads the transformation of the management-reporting process at Portugal's leading public-service media company. He is migrating reports previously based on SAP BI extractions and Excel files to Power BI dashboards, fed by direct connections to databases and SharePoint files, and implementing process and task automation with Power Automate. He is leading the redesign of the cost-centre plan and collaborates in preparing the Annual Report and Accounts, the Activities and Budget Plan (PAO) and public-service reports. He is also part of the team responsible for the transition to SNC-AP (public-sector accounting standards), which involves redesigning the ERP and the accounting processes for the new regulatory framework.

TML – Transportes Metropolitanos de Lisboa, EMT, S.A. · Management Controller · Apr 2022 – Nov 2025

Responsible for the complete budget cycle and monthly closing of a public transport company in the Lisbon Metropolitan Area. He implemented cost-accounting processes in the ERP and developed analyses and Power BI dashboards that brought management information closer to decision-makers, while also ensuring regulatory reporting, participation in public procurement and liaison with external auditing.

h3 Portugal, S.A. · Management Controller · Sep 2012 – Apr 2022

For almost a decade, he structured the budgeting process of a diversified food-service group, designed and maintained an integrated management-reporting system and dynamic Power BI dashboards, and optimised inventory-management processes, increasing efficiency and reducing the risk of error.

El Corte Inglés, Grandes Armazéns, S.A. · Controller · Jun 2010 – Aug 2012

Responsible for budgets, management reports and KPI dashboards, and for the development and analysis of business plans supporting growth and diversification in the retail sector.

El Corte Inglés, Grandes Armazéns, S.A. · Internal Auditor · Jul 2004 – Jun 2010

He began his career in internal auditing, assessing corporate governance and internal control, conducting cross-functional audits of suppliers, customers and accounting areas, and implementing risk-management strategies — a foundation that underpins the analytical rigour of his current work and that culminated in the IPAI Award 2010.

05 KEY ACHIEVEMENTS

- 1st National IPAI Award 2010 (Portuguese Institute of Internal Auditing) for the best internal-auditing work.
- Best Student Award in the Master's in Auditing 2009/2010 (ISCAL), with a final grade of 15/20; 16/20 in the Postgraduate Diploma in Taxation.
- Technical and academic recognition through talks at conferences and congresses (GIRA/ISCTE-IUL, IPLeiria and ISCAL).
- Implementation of cost-accounting processes in an ERP system, strengthening the rigour and reliability of management information.
- Design of integrated management-reporting systems and Power BI dashboards, improving access to information and decision support.
- Optimisation of inventory-management processes, increasing efficiency and reducing the risk of error.
- Sustained progression from internal auditing to leading planning and management control, over more than 20 years and four sectors of activity.

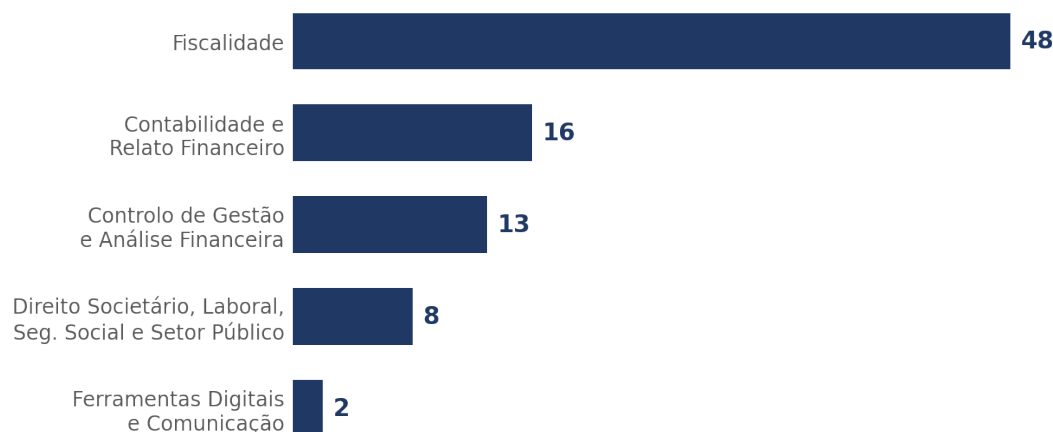

06 EDUCATION

2005	Bachelor's Degree in Accounting and Administration, Auditing Branch — ISCAL · 12/20
2006	Postgraduate Diploma in Taxation — IERU, University of Coimbra · 16/20
2010	Master's Degree in Auditing — ISCAL · 15/20 · Best Student Award 2009/2010
2024	Postgraduate Diploma in Data Science & Business Analytics — ISEG Executive Education · 16/20

07 CERTIFICATIONS & CONTINUING TRAINING

Alongside his academic background, he maintains a systematic investment in technical updating: 87 training courses certified by the Order of Certified Accountants (OCC), of 4 to 8 hours each.

Breakdown by area:

Distinctions and talks

- IPAI Award 2010: Best Paper (1st place), Portuguese Institute of Internal Auditing (IIA Portugal): “The Role of the Internal Auditor in the Social Responsibility of Organisations”.
- GIRA 2010 Conference (ISCTE-IUL): talk on the role of the internal auditor in the social responsibility of organisations.
- 2nd International Congress of Legal-Business Sciences (IPLeiria, 2010): talk “Internal auditing and social responsibility: a theoretical perspective”.
- ISCAL Round Table (2010): talk on the contribution of internal control to corporate social responsibility.

08 TECHNOLOGY TOOLS

Business Intelligence	Power BI, MicroStrategy, SAP BusinessObjects
ERP & Document Management	SAP FI/CO, Primavera, ContaPlus, FileDoc
Productivity	Advanced Excel (Power Query, Power Pivot), Word, PowerPoint, SharePoint
Programming & Analysis	SQL, Python, Scala

09 HIGHLIGHTED PROJECTS

Implementation of cost accounting in ERP (TML)

Context: A public transport company needing reliable, structured management information.

Challenge: Structure cost accounting in the ERP system and integrate it into the budget-control and closing cycle.

Solution: Implementation of cost-accounting processes and their incorporation into the monthly closing.

Impact: Greater rigour and reliability of the financial information supporting decisions.

Integrated management-reporting system and Power BI dashboards (h3 and TML)

Context: Organisations with multiple areas and scattered data, requiring consistent KPI visibility.

Challenge: Consolidate fragmented information into actionable indicators accessible to decision-makers.

Solution: Development and maintenance of integrated reporting and dynamic Power BI dashboards, with supporting models in advanced Excel.

Impact: Improved access to management information and executive decision support.

Optimisation of inventory management (h3)

Context: A food-service group with high complexity in inventory management.

Challenge: Increase process efficiency and reduce the likelihood of error.

Solution: Review and optimisation of inventory-management processes.

Impact: Increased operational efficiency and reduced risk of error.

Award-winning study in internal auditing and social responsibility

Context: Research in the field of internal auditing, linked to the emerging topic of social responsibility.

Challenge: Demonstrate the role of the internal auditor in the social responsibility of organisations.

Solution: Development of a research work with a case study in Portugal.

Impact: 1st National IPAI Award 2010 and three public talks in academic and professional settings.

10 PROFESSIONAL VISION

Over the next five years, the goal is to progress into finance leadership roles: Head of Planning & Management Control, FP&A, or a CFO-oriented path, taking on broader responsibility for financial strategy and performance management.

This path rests on three priorities: leading and developing high-performing management-control teams; consolidating the transformation of the finance function through Business Intelligence, automation and data analytics, making reporting more predictive than retrospective; and strengthening the role of strategic business partner, translating data into decisions that create sustainable value for the organisation.
